OUR STORY IS THE STORY OF WHAT REALLY MATTERS

We are blessed to celebrate our 70th birthday this year. As we continue sharing this journey with you, we look forward to sparking your imagination. Cheers to creating more beauty together!

Our story is the story of beauty,
The eternal beauty, **THE BEAUTY**
that is in the eye of the beholder,
THE BEAUTY of people, flowers
and all in between.

It is about the inner beauty, as well
as **THE BEAUTY** you see from the
outside.

But above all, and beyond the
clichés, it is the beauty of celebrating
what really matters.

THE BEAUTY of dreaming and
daring to think differently,
THE BEAUTY of green thumbs,
THE BEAUTY of a new breed.
THE BEAUTY of being passionate
until we succeed.

THE BEAUTY of having honest and
long lasting relationships with our
customers and sharing a road to the
future.

In Tune With Nature

Innovative breeding
inspired by nature

Nature gives us the beauty of colorful blooms, brings a sense of calm to our chaotic lives, and offers a reason to connect to the world around us.

2024 assortment is a celebration of nature's beauty

DuraBella® is Different

- Having the right ingredients is the first step in creating a successful recipe, DURABELLA® is exactly that
- Each two and three plant recipe is a combination of varieties that were tested for great performance, blend well together and last longer for the consumer
- DURABELLA® - When you want colorful combinations that blend well and last longer

Betsy Ross™
Calibrachoa Lia™ Glaze, Salvia Sallyfun™
Deep Ocean, Petunia Cascadias™ Chili Red

TWO PLANT COMBINATIONS

Low input cost with premium look helps to elevate the perceived value of promotional items

Plant liners in the middle
Use only one liner of each item in the recipe

They will grow & blend well
Finishing at the same time as a traditional 4 or 6 liner planting

Less plants = Less \$ input
A less dense root ball for lower water use and more longevity for the consumer

A large, bushy flowering plant with pink and white flowers is the central focus. The plant is in a white wicker basket with a woven texture, which sits on a white wicker table with three legs. To the right, a portion of a wicker chair with a white cushion is visible. The background is a lush green lawn and foliage, suggesting an outdoor garden setting. A circular graphic with a purple dotted border is overlaid on the right side of the image, containing text.

Breeder's choice: Idan Filo

My top choice from the 24 catalog
is Colibri™ Tangerine

I have worked many years towards a worthy
orange bloomed variety to add to the Colibri™
series and Colibri™ Tangerine is definitely it.
It fits the series well with its controlled growth
habit, abundant flower coverage and excellent
garden performance.

My top choice from the 24 catalog:

STREAM™ Compact Series

The new series is easy to grow with a controlled growth habit making it a favorite for greenhouse production. It is also early with continued blooming and a sweet scent that attracts pollinators. It looks great in pots but really shows off when the consumer plants it at home.

STREAM™ COMPACT

Lobularia hybrid

- Controlled growth in the greenhouse then continues to gain size to fill larger containers
- Floriferous, ball-shaped plant structure
- Highly fragrant, pollinators love it!

Breeder's choice: Idan Barshan

My top variety choice from the 24 catalog:

OSTICADE™ Twilight Moon

This variety is an attractive plant with saturated flower color that changes as the blooms mature.

This results in several bloom colors on the plant at once.

Due to its mounding/semi-trailing habit it can be used for both upright pots and baskets.

Osticade™ Twilight Moon

OSTICADE™

Osteospermum ecklonis

- Controlled Semi trailing habit is perfect for baskets
- No need for cold treatment, can be grown in a warm greenhouse along with other annuals
- Available as Callused Cutting

A photograph of a basket of Amore Princess Pink petunias. The basket is made of light-colored wicker and is lined with white fabric. The flowers are a soft pink color with white variegation and yellow centers. The basket is placed on a light-colored, textured rug. In the background, there is a wicker chair with a white cushion and a large green plant.

Disclaimer: The information regarding tolerance presented in this catalog is the result of tolerance demonstrated on field observation and/or laboratory diagnostics, as applicable. Danziger makes no representation and does not warrant or guarantee that the variety will indeed present the said tolerance in practice due, among other, to different factors who might accrue in the cultivation area.

PERENNIA

LS

Danziger offers a diverse mix of perennials as top quality unrooted cuttings. The full line is produced and supplied through Danziger Kenya.

All Danziger genetics are first year flowering which has the benefit of no bulking or vernalization requirements. All of our perennials can also be successfully produced through traditional growing methods.
